PROFESSIONAL SUMMARY

Electronics and Computer Science Engineering undergraduate with strong foundations in Java, C, Data Structures and Algorithms, Object-Oriented Programming, DBMS, and SQL. Hands-on experience developing software applications and RESTful APIs using Node.js, Express.js, React.js and MySQL. Strong analytical, problem-solving, and debugging skills with an interest in backend engineering, scalable software systems, and cloud technologies. Eager to apply software development skills, learn new technologies, and contribute to engineering solutions.

TECHNICAL SKILLS

- **Languages:** C, Java, JavaScript
- **Frontend & Backend:** HTML5, CSS3, React.js, Node.js, Express.js, REST APIs
- **Databases:** SQL, MySQL, PostgreSQL
- **Core CS:** OOP, DSA, DBMS, Operating Systems, Computer Networks
- **Tools & Platforms:** VS Code, Git, GitHub, Postman, Vercel, Render, AWS (Basic)

PROJECTS

Kampus Kart: Smart Campus Exchange Network *React.js, Node.js, Express.js, PostgreSQL | November 2025*

•Built a **full-stack** campus marketplace enabling users to buy, sell, and rent items with user authentication and authorization.

•Developed **RESTful APIs** for user management, product listings, and order processing using Node.js and Express.js.

•Designed a **responsive** React.js interface and integrated PostgreSQL for structured storage of users, listings, orders, and transaction data.

•Implemented **product listing** and **order management features**, enabling users to manage listings, view product details, and track their orders.

Smart Inventory & Sales Management System *React.js, Node.js,Express.js, MySQL | May 2026 - Present*

•Developing a **business management system** for wholesale trading and export operations, tracking inventory of potatoes, onions, and mango consignments across godowns.

•Implementing modules to **record daily sales**, stock levels, buyer details, and packet-wise distribution for wholesale transactions.

•Building **export management features** to monitor carton counts, shipment destinations, delivery status, and transaction values.

•Designing a **responsive dashboard** for visibility into inventory, sales history, and logistics status across multiple locations.

EDUCATION

Year	Degree/Exam	Institute	GPA/Marks(%)
2023–2027	B.Tech in Electronics and Computer Science	Kainga Institute of Industrial Technology, Bhubaneswar	8.17/10(*Present*)
2022	Intermediate (CBSE)	Gurukripa Academy, Kahalgaon	66.6%
2020	Matriculation (CBSE)	Goethals Public School, Pirpainti	86.8%

ACHIEVEMENTS & CERTIFICATIONS

Secured 1st Position among 150+ teams at a technical event organized by the School of Electronics, KIIT University, for developing and presenting **Kampus Kart**, a full-stack Campus Exchange platform using the **PERN** stack. **Led the team** and contributed to the development of the platform, including backend functionality, database management, authentication, and API integration. Received recognition and certification from the Dean.

- **SQL for Beginners** – Scaler
- **Full Stack Developer** – freeCodeCamp
- **Programming with Java** – Coursera
- **AWS Cloud Practitioner Essentials** – AWS
